# Orwell's "1984": SDG - 9

## Industry, Innovation, and Infrastructure

S.No.	REG NO.	NAME	SUBTOPIC
1	RA2411030010234	M VIGNESH	Role of Infrastructure in Oppression
2	RA2411030010245	P VIGNESH	Technological Control and Surveillance
3	RA2411030010270	ROHITH P	Industrial Stagnation and Warfare Economy
4	RA2411030010274	JANAKIRAMAN A	State-Controlled Innovation and Scientific Research
5	RA2411030010283	MONISH D	Perpetual War and Resource Allocation
6	RA2411030010285	JOHN MEDWIN G	Ideology as an Infrastructural Framework
7	RA2411030010289	VIJAY ANAND DS	The Decay of Scientific Integrity
8	RA2411030010454	ANIISH R	Fconomic Inequality and Resource Distribution

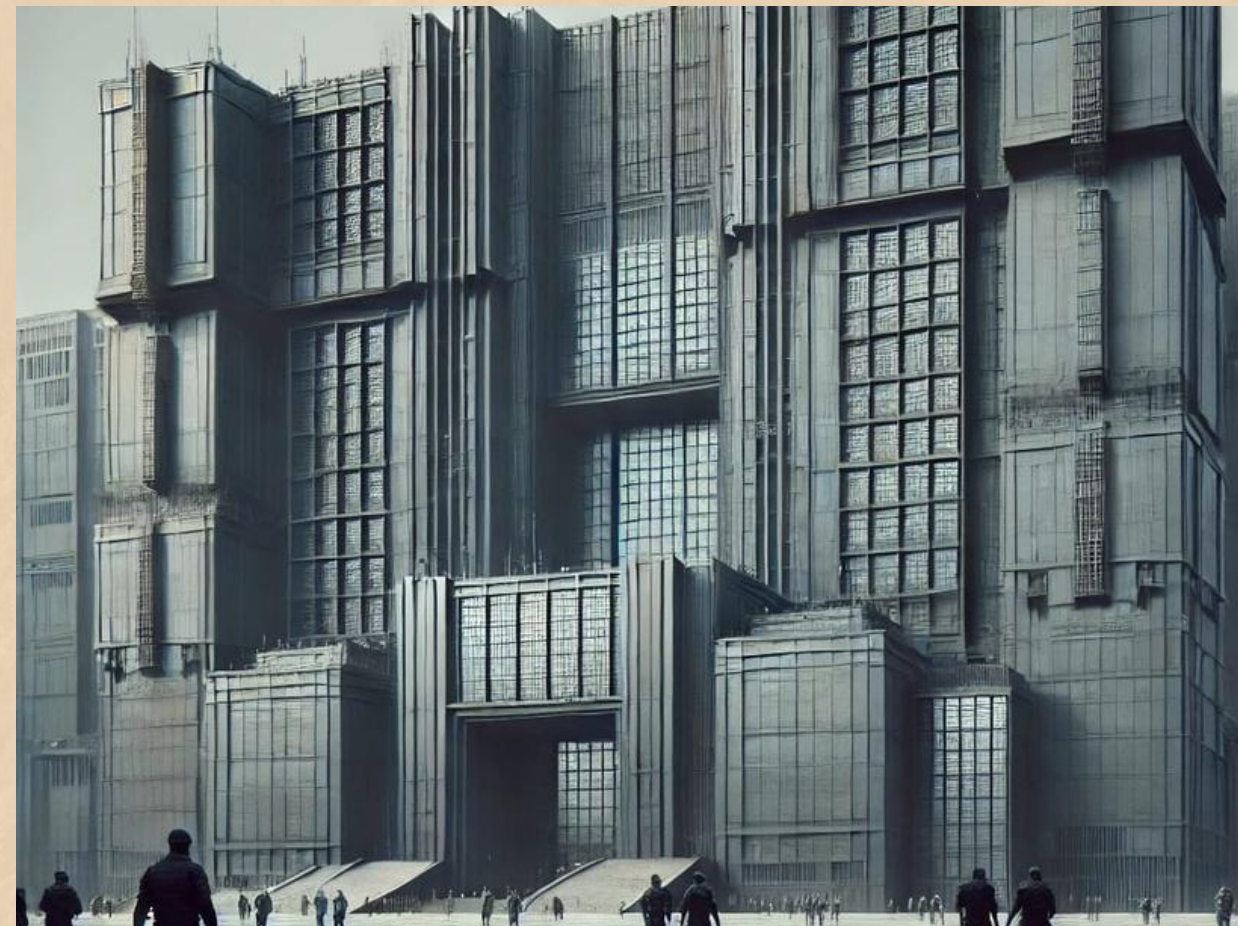

# The Role of Infrastructure in Oppression

1984 by George Orwell and SDG 9: Industry, Innovation, and Infrastructure

- Infrastructure shapes society's function.
- In 1984, it enforces control, not progress.
- Ministries, telescreens, and decay sustain oppression.
- SDG 9 calls for ethical and sustainable infrastructure.

# How Infrastructure Serves Oppression in 1984

- Ministries manipulate truth and enforce fear.
- Public infrastructure is decayed and neglected.
- Surveillance systems eliminate personal freedom.
- No innovation-only control and war.

# Technological Control and Surveillance

## 1984 by George Orwell and SDG 9: Industry, Innovation, and Infrastructure

- Technology should improve lives, not restrict them.
- In 1984, it enforces control, not progress.
- Telescreens, microphones, and Thought Police monitor all.
- SDG 9 promotes ethical and inclusive innovation.

# How Technology Enforces Control in 1984

- Telescreens monitor every action and thought.
- Hidden microphones eliminate privacy.
- Innovation serves the Party, not the people.
- No progress-only fear and obedience.

# Industrial Stagnation and Warfare Economy

**1984 by George Orwell and SDG 9: Industry, Innovation, and Infrastructure**

- Industry should drive progress, not control.
- In 1984, innovation is stifled by war.
- Resources serve conflict, not development.
- SDG 9 promotes sustainable industry and growth.

# How War Destroys Industry and Progress in 1984

- Factories produce weapons, not necessities.
- Perpetual war keeps society weak and stagnant.
- No real innovation-only destruction.
- The Party controls resources to maintain power.

# State-Controlled Innovation and Scientific Research

## 1984 by George Orwell and SDG 9: Industry, Innovation, and Infrastructure

- Innovation should drive progress, not control.
- In 1984, science serves only the Party.
- Research is restricted to surveillance and war.
- SDG 9 promotes ethical and inclusive innovation.

# How Science and Innovation Serve Oppression in 1984

- Research is controlled-truth is what the Party says.
- Technology advances only for surveillance and torture.
- No scientific progress-only power preservation.
- Independent thought and innovation are forbidden.

# Perpetual War and Resource Allocation

## 1984 by George Orwell and SDG 9: Industry, Innovation, and Infrastructure

- War should not drive economies-innovation should.
- In 1984, war is used to control society.
- Resources are wasted on destruction, not progress.
- SDG 9 promotes sustainable infrastructure and growth.

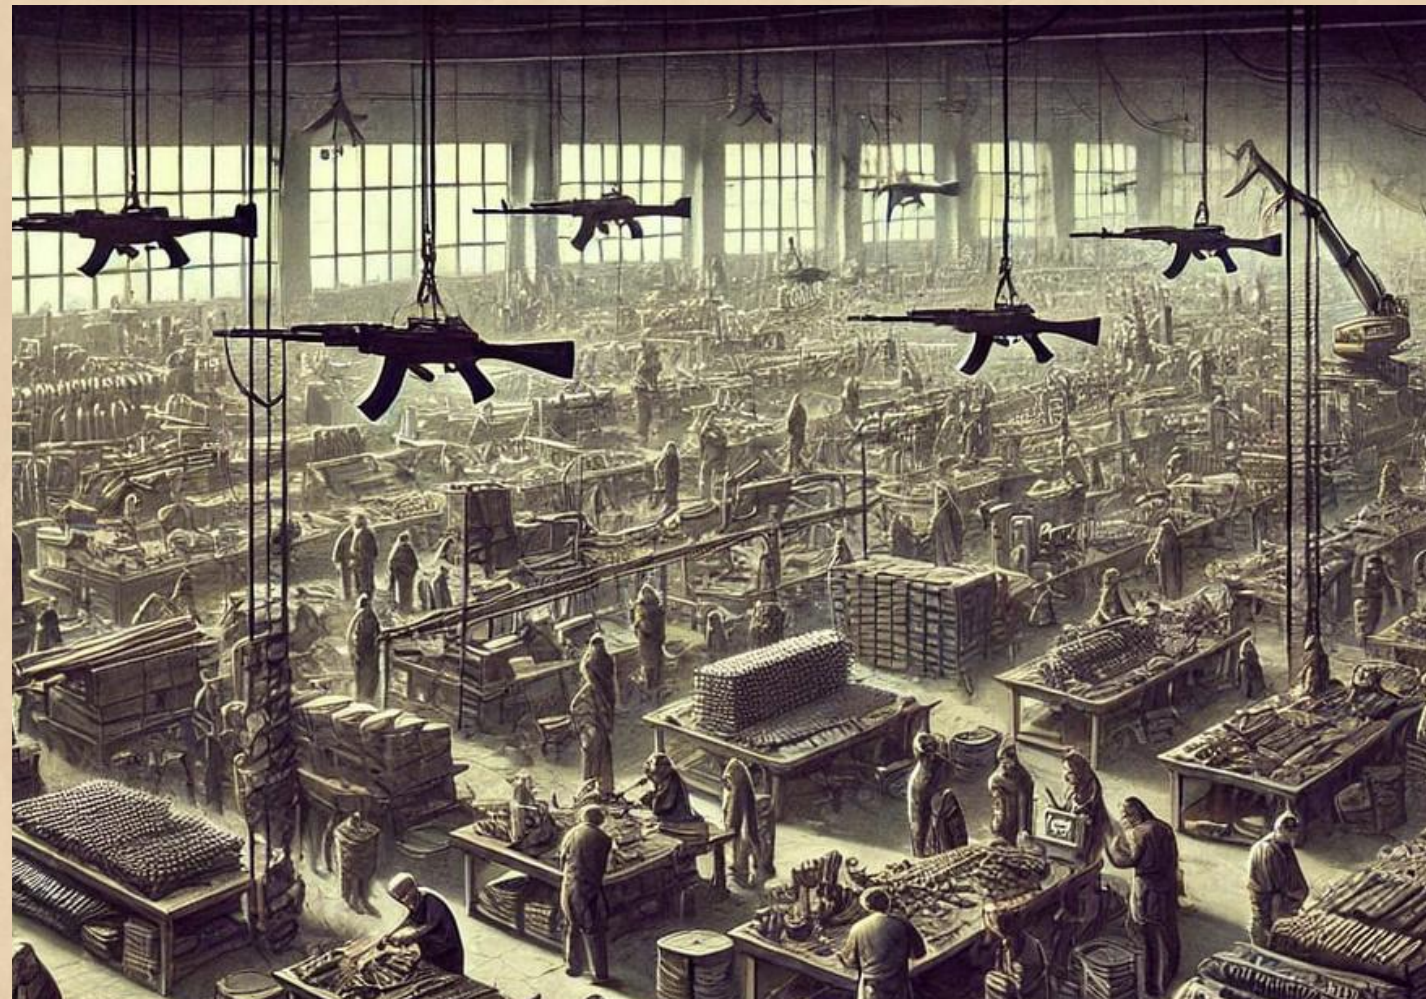

# How War Controls Industry and Society in 1984

- War justifies economic shortages and poverty.
- Factories produce weapons, not necessities.
- No technological progress-only destruction.
- The Party keeps people struggling to stay in power

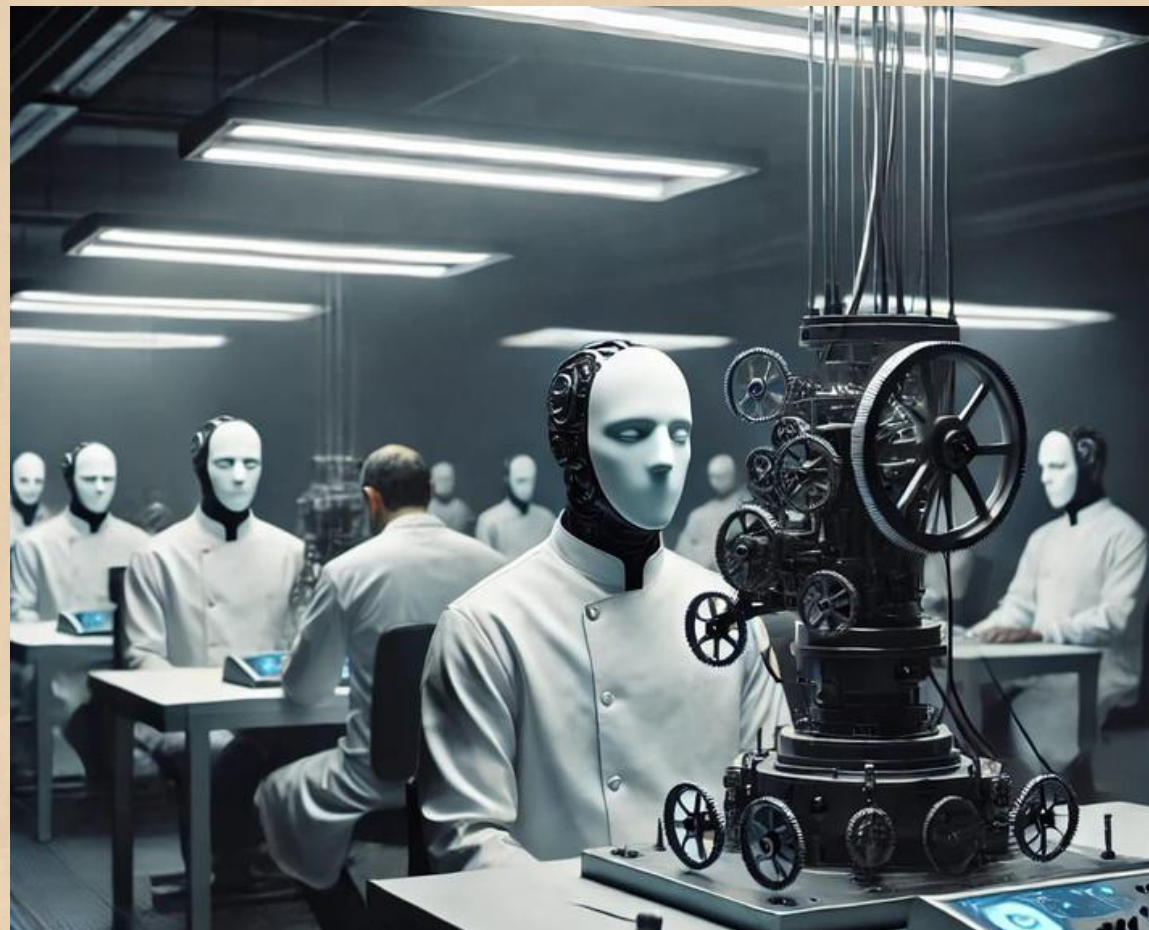

# Ideology as an Infrastructural Framework

1984 by George Orwell and SDG 9: Industry, Innovation, and Infrastructure

- Infrastructure shapes society-so does ideology.
- In 1984, ideology controls thought and progress.
- Ingsoc limits innovation and independent thinking.
- SDG 9 promotes free, sustainable development.

# How Ideology Limits Progress in 1984

- Newspeak reduces language and critical thinking.
- Doublethink forces people to accept contradictions.
- No freedom to innovate-only Party-approved ideas.
- Control of knowledge stops real development.

# The Decay of Scientific Integrity

1984 by George Orwell and SDG 9: Industry, Innovation, and Infrastructure

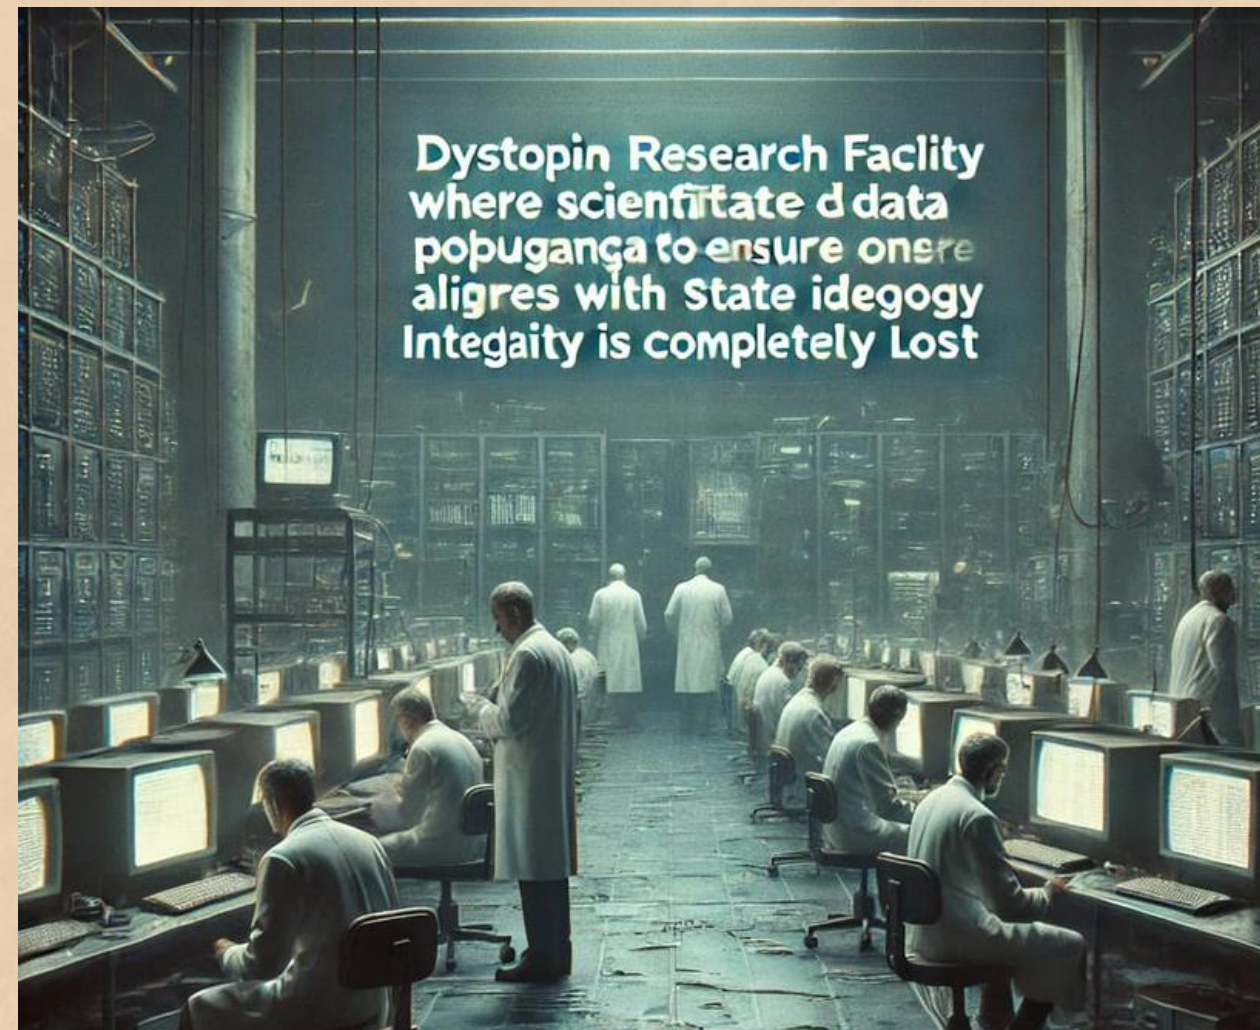

- Science should seek truth, not control.
- In 1984, research is manipulated by the Party.
- Facts are altered to serve ideology.
- SDG 9 promotes ethical and innovative progress.

# How Science is Corrupted in 1984

- Truth is replaced by Party-approved "facts."
- No real research-only ideological control.
- Technology serves oppression, not progress.
- Suppressing knowledge prevents societal growth.

# Economic Inequality and Resource Distribution

## 1984 by George Orwell and SDG 9: Industry, Innovation, and Infrastructure

- Industry should create prosperity for all.
- In 1984, wealth is controlled by the Party.
- The elite live in luxury, while others suffer.
- SDG 9 promotes inclusive economic growth.

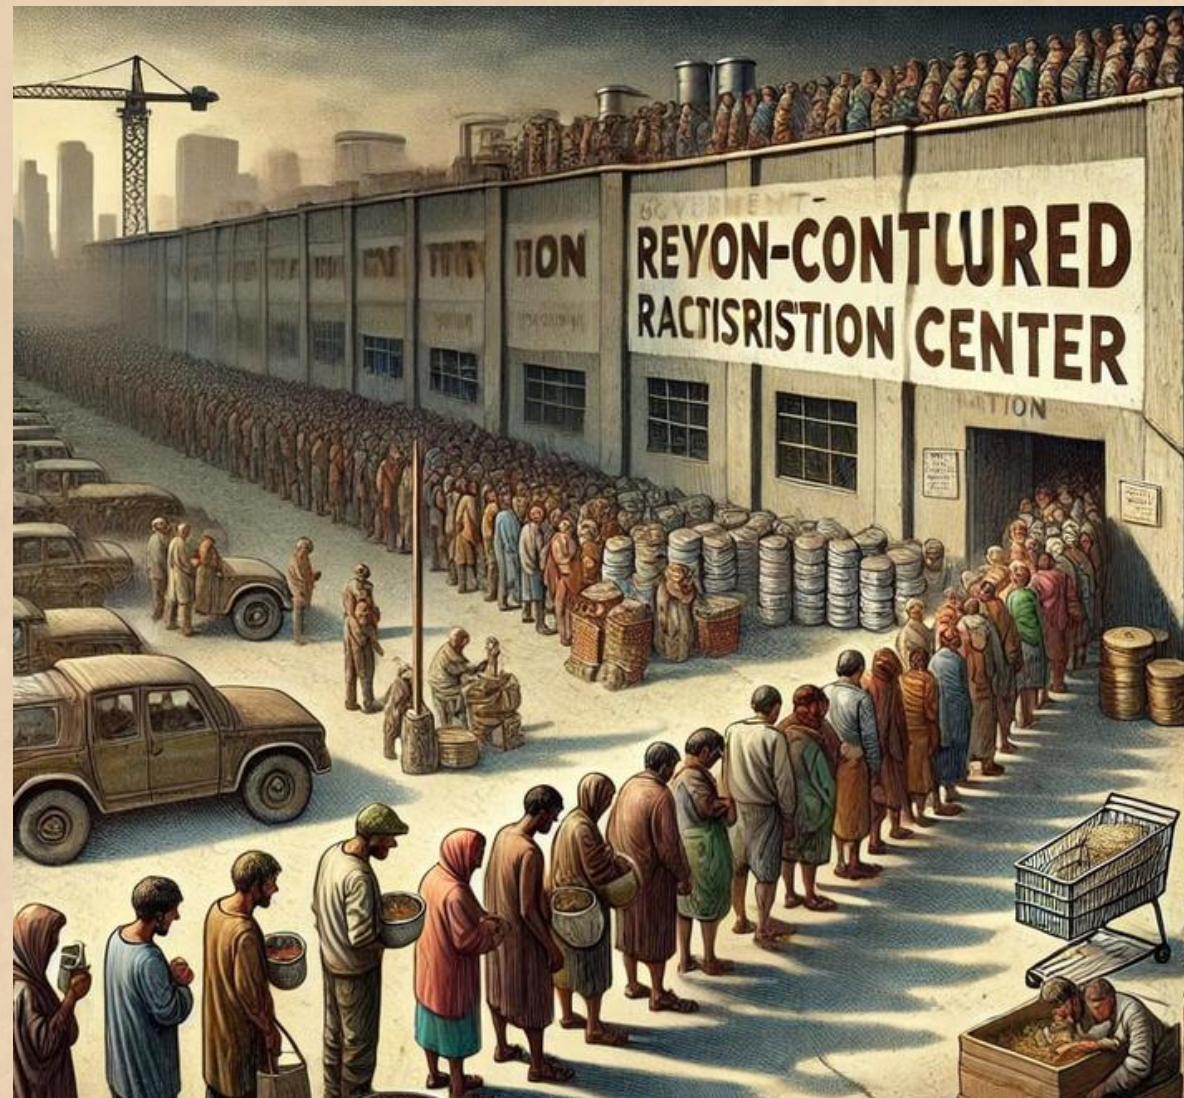

# How Economic Inequality Sustains Control in 1984

- The Party controls all industries and wealth.
- Innovation is blocked to maintain scarcity.
- The Proles remain poor and powerless.
- SDG 9 promotes fair access to resources.

# Thank You
